To search:

- 1** Type the terms of your search in the Search box. Do not worry about correct punctuation or capitalization, but try to use correct spelling.
- 2** Ensure **Keyword** is selected in the **within** drop-down menu.

For more advanced searching, click on the **Advanced** tab above the search box.

Search tips:

- Use quotes for phrases: "united states"
- Use ? for truncation: child? will retrieve results with child, childhood and children.
- Don't use general terms like "religion," as they will retrieve more results than you need and more than you have time to look through.
- Do try to be specific. Instead of "religion," try "women early christianity." The catalog will automatically search for all three words in keywords anywhere in a record.
